

## **Privacy Policy**

Privacy Policy The profile of all members on the platform shall be explicitly confidential, and will not be disclosed to any other member on the platform unless an express consent is sought by the member. Data on the platform is held in a distributed way. This is important to avoid the user data breaches that befall centralized databases. With the Etherecash platform, loan collateral is independently secured in unique smart contracts associated with individual credit agreements. Continual development requires developers to have permission to access and to update the software and as a result, the back-end marketplace will be centralized and under the control of Lending as an organization. The platform inherits the trust sensitive aspects of the protocol tokens which underpin the product. The platform is committed to keeping any and all personal information collected from the individuals that visit our website and make use of our platform accurate, confidential, secure and private.
